

Education:

- ❑ Where did they complete their oral implantology training?
E.g Masters of Implantology
- ❑ Did any of them include a residency of any sort?
Yes, a "Mini Residency" at Goethe University in Frankfurt
- ❑ How frequently do they attend implantology-specific education?
3 times a year

Materials:

- ❑ Do they use quality implants?
Ambience Dental uses implants from the Strawmann implant system, the world's leading implant manufacturers
- ❑ Where are their crowns produced?
In Australia, by one of the leading ceramists (Omega ceramists, Coach house ceramists)
- ❑ How long have they been using each of these providers?

Experience:

- ❑ How many implants do they place every year?
Ambience dental places over 100 implants for patients every year
- ❑ Find out how long they've been practicing Prosthodontics
Dr. Behier Over 12 years, and Dr. Saad over 22 years
- ❑ And ask how many patients they perform dental implants on every month?
Dr. Behier and Dr. Saad each see around 8-10 patients for dental implants every month!
- ❑ If you have any specific conditions, such as diabetes, high blood pressure, bones loss, or periodontal problems, have they treated patients with those issues before?
Both Dr. Behier and Dr. Saad have successfully treated patients with all types of health concerns and challenges. Generally speaking, the most critical factor for conditions such as high blood pressure or diabetes is that they are being monitored by a medical doctor, and are well controlled.

For conditions that affect bone quality in the jaw, both Dr's have seen it all. They're trained extensively with the strawmann implant system.

The Consultation:

- ❑ What is included in the consultation?
Your free consultation includes a thorough examination of your mouth, including a 3D head and neck scan (known as a CBCT) to get a deeper understanding of the health of your teeth and the bone structures around them, all of which can impact type of implant and placement.

- ❑ Are there any additional services necessary to complete the consultation and treatment planning?
No. While some providers charge an additional fee for the CBCT scan, Ambience Dental includes it as part of your free consultation. There are no additional services required to complete your consultation.

- ❑ How long will it take?
On average, 30 minutes

- ❑ Do you need to bring anything with you?
Just bring yourself and your medical history. You can fill out a medical history form ahead of time. If you've had a CBCT scan from another dentist within the past 6 months, you can bring that with you as well.

- ❑ Who will you meet with?
You'll meet directly with either Dr. Behier and Dr. Saad, both are Ambience Dental's resident Implant Experts.
